Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has added the domestic use of bulb vegetable (Crop Group 3-07) treated seeds to the product label of Dynasty 100FS Fungicide, containing technical grade azoxystrobin. The specific use approved in Canada is detailed on the label of Dynasty 100FS Fungicide, *Pest Control Products Act* Registration Number 28394.

Corresponding maximum residue limits (MRLs) were proposed in the consultation document published on 27 June 2011, Proposed Maximum Residue Limit PMRL2011-23, *Azoxystrobin*. The PMRA received no comments in response to this consultation.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRLs take legal effect in Canada as of the publication date of this document and are in addition to the MRLs already established for azoxystrobin.

Established Maximum Residue Limits for Azoxystrobin

Common Name	Residue Definition	MRL (ppm)	Food Commodity
Azoxystrobin	(α*E*)-methyl 2-[[6-(2-cyanophenoxy)-4-pyrimidinyl]oxy]-α-(methoxymethylene) benzeneacetate, including the isomer (*Z*)-methyl 2-[[6-(2-cyanophenoxy)-4-pyrimidinyl]oxy]-α-(methoxymethylene) benzeneacetate	7.5	Green onions (Crop Subgroup 3-07B, except green onions*)
		1.0	Bulb onions (Crop Subgroup 3-07A, except dry bulb onions**)

* Excepted from this action as a corresponding 7.5 ppm MRL is already established for green onions.

** Excepted from this action as a corresponding 1.0 ppm MRL is already established for dry bulb onions.

MRLs are established for commodities included in the listed crop groupings in accordance with the Residue Chemistry Crop Groups webpage in the Pesticides and Pest Management section of Health Canada's website.

A complete list of all pesticide MRLs established in Canada can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
